Subject: Update on Auto Enrollment of Transportation Category of Services

Importance: High

This message originated from outside your organization

Provider Association Members:

Just wanted to touch base to let you know that DOH requested an updated list from OPWDD to begin the auto-enrollment of the transportation category of service (0606) to existing HCBS Waiver provider enrollments.

That list has been provided so they will now begin the process.

The task is being done manually, so it could be several weeks before providers receive any notification about the updates taking place.

Let us know if you have any questions.

Thanks,

M.
